

ALTO SHAAM AR-7E

ELECTRIC ROTISSERIE

Electric rotisserie is constructed of stainless steel with a spit rotation, controlled by a 1/2 hp motorized disk that provides an incremental rotation jog and automatic stop when door is opened. The cook temperature range is from 121° to 218°C. Additional electronic control features include a product hold key with a temperature range of 60° to 99°C, cooking set-points from 1 minute to 4 hours and emergency stop.

Holding companion accessory has a capacity of 8 pans and uses Halo Heat® that gently maintains food temperature without drying or overcooking food. Designed to be used with AR-7E rotisseries.

STANDARD FEATURES

- Temperature-dropping hold mode further saves on energy costs.
- Solid stainless steel back prevents further heat loss.
- Cook and hold in a single, counter-top rotisserie that features a combination of convection and radiant heat.
- A choice of one or two cooking stages for an improved finished product.
- Solid state electronic control has a clear, easy-to-read LED display to cook by time and features an automatic temperature reduction to a holding mode where product can remain until needed.
- Programmable control option with a seven program memory for both the cooking and holding function.
- The rotisserie can be stacked with an identical rotisserie oven or with a matching holding cabinet.
- Interior drip strips channel drippings into a bottom drip pan for convenient removal.
- Spits, rotating disks, drip strips are also removable for easy cleaning.
- Interior lighting is recessed to protect from breakage.
