

## Meal Delivery Carts

### Low Profile, Double Door, 20 Tray Capacity

Models MDC1520S20  
MDC1418S20

#### Features & Benefits

StoreSafe

- Durable carts designed to specifically meet the meal delivery needs of hospitals (acute care), long term care and correctional facilities.
- Designed to work with unitized pellet system, heat on demand base system or insulated trays.
- Single stack rail system handles 2 trays per rail, 10 trays per compartment with a 5½" (14 cm) clearance between rails.
- Meal serving capacity per compartment is 10 each 15" x 20" (38 x 52 cm) or 14" x 18" (36 x 46 cm) fully loaded trays.
- Durable, one-piece, molded polyethylene construction ensures long term durability and reliability. Molded bottom bumpers protect walls and furniture.
- Thick foamed-in place polyurethane insulation provides added structural strength and reduces noise while transporting. High performance self venting optimizes food quality.
- Molded-in marine rail top provides an ergonomic work surface and keeps trays secure during service preparation.
- Molded-in handles on both ends make it easy to transport and maneuver.
- Insulated doors are lightweight, durable and open a full 270° to the side for easy loading and unloading.
- Nylon friction latches ensure that doors close securely. MDC1418S20 also has external lock hook for security.
- Self-draining bottom in each compartment facilitates easy cleaning.
- Casters:  
MDC1520S20: Two each 8" (20,3 cm) fixed center casters and 2 each 5" (12,7 cm) side swivel casters w/ brakes are set in a unique diamond configuration for easy steering.  
MDC1418S20: Four each 5" (12,7 cm) non-marking casters, 2 swivel with brake, 2 rigid, slightly offset.
- Non electrical.
- No assembly required.
- Available in 5 colors.
