

Cambro MDSPL Thermal Pellet Lifter

Product Description

Cambro Shoreline Meal Delivery Pellet Lifter, MDSPL-000. It is designed to securely lift a thermal pellet or 9" plate from a plate heater or other surface with merely a push of the hand. This helps protect workers' hands as they prepare meals in a hospital, nursing home or other medical institution. They are also great for cafeterias or full-service buffets where food is served on hot plates. Use this lifter in conjunction with the thermal pellet MDSP9 or a 9" ceramic plate MDSPLT9. Reduces the risk of burns and injuries.
